### About Rome

Rome is one of the most-visited cities in the world, 3rd most visited in the European Union, and the most popular tourist attraction in Italy.

The historic centre of Rome is listed by UNESCO as a World Heritage Site. Monuments and museums such as the Vatican Museums and the Colosseum are amongst the world’s 50 most visited tourist destinations.

After the intense days at the ECET 2019 conference you can take the opportunity to get further inspired by a visit to the city centre. Indulge yourself with the calm walk through the magnificent medieval streets, enjoy the scenery of the thousand years old monuments, feel the taste of Italian cuisine in one of the hundreds of unique restaurants.

Rome’s hot, dry summer days, with high temperatures often above 75 °F (24 °C), are frequently cooled in the afternoons by the ponentino, a west wind that rises from the Tyrrhenian Sea. The city receives roughly 30 inches (750 mm) of precipitation annually; spring and autumn are the rainiest seasons.
